Public works report:

All of our wells and springs are still producing water. Production has dropped significantly and the recent rain events are helping.

One water main break on South Avenue last month. It was a known weak spot in a line that had a surge of pressure due to a fire department event.

Wrapping up the capital project now, expect the contractor to be completed within two weeks

We had one sewer plug this month on Maple Avenue.

The new street sweeper is in service and we have been using it.

The school speed zone hour signs have been installed, and most of the cross walks have been painted.

We are almost done with the preparations for Halloween and should have banners down tomorrow.

Installation of plow equipment as needed, still have some street work to do before we mount the plow equipment.

The tree in front of Hometown Pizza has been removed and the hole for the additional flag in the sidewalk has been installed.

The community sign has been modified to receive the new LED sign; we are waiting for the sign installation company to show up for the new installation.
